CAS/CAIS USER GROUP MEETING

Location: Fontainebleau Hotel

Date: Thursday, October 24, 2024

Time: 9:00am – 12:00pm

Optional Tour of Fontainebleau Hotel

Address: 2777 South Las Vegas Blvd, Las Vegas, NV

Location: Meet at the hotel lobby at 8:45am. Tour will start and leave the lobby promptly at 9:00am.

Note: You will need to plan for your own transportation to the Fontainebleau hotel.

Site Information Sharing

We want to facilitate a discussion with a representative from each Site to address the questions below. We feel this beneficial feedback could be a great information sharing opportunity for the group. There is no need for a PowerPoint presentation as these questions will be addressed as part of a discussion.

1. Do you sometimes struggle to find certain components or materials within the RS Means data? If so, please provide examples.

2. How do you develop and maintain the Cost Adders for your Site? Do you find your Cost Adders change frequently?

3. Do CAS inspectors also perform your Functionality Assessments at your Site? If so, how is that managed?

4. Is your Site fully staffed with inspectors?

5. Is your Site using any third-party vendor to help with inspections? For example, a sites DOT for road inspections.

6. Is your Site using any non-standard inspection tools? For example, drones.

7. Are there any gaps in your Sites inspection program? If so, please provide examples.
