Change Request #: 17-03**

Requestor Name:	Jason Nanni	Date:	10-24-16	Affiliation:	
Email Address:	Jason_T_Nanni@rl.gov	Phone No:	509-376-6755	DOE	
Site Name:	Richland	HQ Program Office:	EM	Contractor	X
Proposed Change:	<p>Richland has a need for the ability to expand the upload functionality of the CAIS application from the IU level to the System level. This enhancement will support development initiatives currently in progress to create a CAIS mobile application. The RL Site needs the ability to mas upload the following data based on Property ID and Volume:</p> <ul style="list-style-type: none"> • Factor • Engi neered RN • Engi neered DM • Percent Failed • Calculation Method RN • Calculation Method DM • DM Flag • Last Inspection Date • Group • Comments • Next Inspection Date 				
Justification:	<p>Expanding the existing upload functionality from the IU level to the System level will directly support the creation of the Hanford Mobile CAS application providing a method for uploading data once it is collected offline on a Mobile device.</p> <p>This functionality will also support other Sites who utilize the system level inspection process through streamlining the data entry process.</p>
