Condition Assessment Information System
Request for Change
Change Request #: 17-08**

Requestor Name:	Jackie Dearborn	Date:	1/13/17	Affiliation:	
Email Address:	idearborn@anl.gov	Phone No:	630-252-2347	DOE	
Site Name:	Argonne National Laboratory	HQ Program Office:		Contractor	
Proposed Change:	Make Optimum Year a required field				
Justification:	<p>When you just specify an Urgency of 3-5 years, there is no basis - it needs to be defined further. If Optimum Year is required, you would enter either 2020, 2021 or 2022 if the inspection was performed in 2017. Without a defined year, you wouldn't know if the 3-5 years was from the last inspection date (which will change every 5 years) or from the last updated date. If I open the IU 5 years from now, it is still going say that it should be addressed in 3-5 years when in reality, it should have already been addressed.</p> <p>It will also be easier to report on annual required maintenance, as the DROMa is requesting, if this information can be extracted directly from CAIS.</p>				
Please Do Not Type Below This Line					
CCB Remarks:	02/23/2017 – Not recommended by the CCB. This data element is only used by half of the sites. Making this field a force required data element would negatively impact those sites not using this field and would force them to unnecessarily populate the data element.				
OAM Remarks:	02/24/2017 – Adam Pugh concurs with the recommendation of the CCB. This change is not approved.				
Implemented:
