Office of Asset Management (MA-50)
Subject: Condition Assessment Information System (CAIS) Version 3.15 Release

Today, Friday, March 23, 2018, version 3.15 of the Condition Assessment Information System (CAIS) was released. This release addresses the following enhancements.

Line Number Search Window

- The Line Number Search window was modified to display the **Legacy RSM Line Number** and **Legacy Line Number Description** for those IU records that are linked to legacy RS Means Line Numbers of 'ZZ9999'. It is beneficial for Sites to see this information on the window as they search for a replacement line item.

IU Detail Window

- The IU Detail window has been modified to display the Legacy Line Number and Legacy Type Description in the **Legacy Line Number Description** field as opposed to displaying in the popup message box. This ensures the information is available to view long after the popup message box is closed.

System Documentation

- The CAIS User's Guide has been updated to reflect the enhancements included in this release. This document can be obtained from the CAIS website at <https://cais.doe.gov/caisinfo/doc.html>.

If you have any questions related to these enhancements, please contact the FIMS/CAIS Help Desk at 301-337-6019 or via email at fims_cais_help@hq.doe.gov.
