Subject: Condition Assessment Information System (CAIS) Version 3.16 Release

Today, Thursday, May 3, 2018, version 3.16 of the Condition Assessment Information System (CAIS) was released. This release addresses the following enhancements.

IU Detail

- Inactive inspectors will now display as protected in the **Inspector Name** pick list. Inactive inspectors cannot be chosen for new IUs.

Line Number Search

- The **Line Number Description** data field will now scroll to allow the entire description to be seen. Click the last letter of the visible description or click in the field and use the arrow keys.

Unarchive IU button

- Unarchiving an archived IU will now return you to the IU List of the active record.

Ad Hoc reports – Asset Level and IU Level

- All dates are now sortable in the Excel output file.
- For the Asset level Ad Hoc reports, **Last Inspection Date – YYYY/MM/DD** and **Next Inspection Date – YYYY/MM/DD** have been removed.
- For the IU level Ad Hoc reports, **Inspection Date – YYYY/MM/DD** and **Next Inspection Date – YYYY/MM/DD** have been removed.

IU List

- The IU List window now has the capability to customize the columns that are displayed. A

button now exists that allows you to add or remove existing columns from the IU list window via a simple checkbox.

Project Module

- An error message will now be displayed if you try to link the same IU in more than one project.
