Office of Asset Management (MA-50)
Subject: Condition Assessment Information System (CAIS) Version 3.18 Release

Today, Monday, October 15, 2018, version 3.18 of the Condition Assessment Information System (CAIS) was released. This release addresses the following enhancements.

IU Upload

- New IUs can now be created in CAIS through the IU Upload process. Select Assets, IU Upload from the menu to access the IU Upload process. On the IU Upload window, select the New IU radio button. The generated template is automatically populated with the 15 data fields required to add a new IU. Additional data fields may be included in the new IU upload by selecting them from the Available Columns list.
- The data validation edit checks for uploading a new IU are the same as creating an IU within CAIS.
- IUs that already exist can still be updated through the IU Upload process by selecting the Existing IU radio button and generating a template.

System Documentation

- The CAIS User's Guide has been updated to reflect this enhancement. This document can be obtained from the CAIS website at <https://cais.doe.gov/caisinfo/doc.html>.

If you have any questions related to this enhancement, please contact the FIMS/CAIS Help Desk at 410-482-0111 or via email at fims_cais_help@hq.doe.gov.
