Request for Change  
Change Request #: 20-06**

Site Name:	SLAC National Accelerator Laboratory	HQ Program Office:	SC	Contractor	Y
Proposed Change:	Capability for an attachment option in CAIS Estimating module				
Justification:	<p>It will help me tremendously particularly for RPV calculations effort. While doing these calculations I always have some documents attached with calcs for my assumptions, equipment list, drawing reference numbers, any pictures, my notes and RPV factor calculations. I have been keeping these in hard files but now that I have RPV calcs online and any of my team members can view them, they start asking me questions about the sources, dwgs, equipment, etc. If I can attach those with these calculations will help everyone and they don't have to wait for my email response.</p> <p>And most importantly I can keep this online so when any property goes thru any modification, It will help me understand what needs to be included in calculations for revision.</p>
