Request for Change
Change Request #: 21-07**

Requestor Name:	McMillan, John D.	Date:	12-11-2020	Affiliation:	
Email Address:	John.mcmillan@science.doe.gov	Phone No:	865-576-6638	DOE	
Site Name:	Oak Ridge Office	HQ Program Office:		Contractor	
Proposed Change:	<p>Provide the capability to add a custom line item to an estimate. This would apply to line item estimates only. Provide a button on the Estimate Detail window that would allow CAIS to create a custom line item and only require the following data elements to be added for that custom line item.</p> <ol style="list-style-type: none"> 1. Quantity 2. Description 3. UOM 4. Estimated Value <p>CAIS will need to generate a "Custom" designation for the RS Means Line Number. The Estimated Value for these custom line items would not be escalated as part of the annual RS Means costing update.</p>				
Justification:	<p>Even though RSMeans contains literally millions of individual line items within its data base, occasionally the estimator has a need to add an item to an estimate that simple isn't included in the RSMeans data base.</p> <p>Sage/Timberline software refers to this feature as "One Time Item". RSMeans refers to this feature as "Custom Cost Data Line".</p> <p>FYI, in Timberline and in Means, this "One Time Item" is added to the estimate, but not added to the software's data base.</p>
