Subject: Condition Assessment Information System (CAIS) Version 3.44 Release

Today, Tuesday, February 15, 2022, version 3.44 of the Condition Assessment Information System (CAIS) was released.   This release addresses the following enhancements.

Removal of Cumulative Adders

- Cumulative Adders have been removed from CAIS from the Site, Area, Asset, and IU level. The existing applied Cumulative Adders have been converted to Cost Adders and applied at the same level (Site, Area, Asset, or IU) as the existing Cumulative Adder. New Cost Adders were created in the Site Data window, Cost Adder table for all Sites that had applied Cumulative Adders. You will find these coded as aa, ab, ac, ad, etc. You will also find in the Description of these new Cost Adders a designation of (2022) appended to the end.

System Documentation

- The CAIS User's Guide has been updated to reflect this enhancement included in this release. This document can be obtained from the CAIS website at https://fims.doe.gov/caisinfo/doc.html.

If you have any questions related to this enhancement, please contact the FIMS/CAIS Help Desk at 410-482-0111 or via email at fims_cais_help@hq.doe.gov.
