Subject: Condition Assessment Information System (CAIS) Version 3.45 Release

Today, Tuesday, April 19, 2022, version 3.45 of the Condition Assessment Information System (CAIS) was released. This release addresses the following enhancements.

Change Requests 22-01, 22-02 and 22-05 (Job Cost Phase Report)

- The following enhancements have been made to the Job Cost Phase report within the Estimating Module.
    - Report will now display the custom **Line Item Description** that was entered on the Estimate Detail window when the estimate was built.
    - The **Quantity** field on the report has been modified to display the decimal values.
    - The **Additional Cost** values entered for an estimate will now be individually displayed on the report.

Change Requests 22-03 (Estimate Detail window)

- An AutoComplete feature has been added to the Estimate Detail window for the **Category** field. This feature will display suggested inputs based on the previous entries for a particular estimate. Begin by starting to type your value into the **Category** field. If a match is found a popup list will appear below the field that provides the option of clicking on a previously entered value for the estimate to facilitate easier data entry into the **Category** field. Or you may continue typing your value.

Change Requests 22-04 (Copy Estimate)

- When copying an estimate, the user now has the option to copy the estimate with the **Quantity** and **Estimate Values** removed from the newly created estimate. This is accomplished via a check box that has been added to the Copy Estimate popup window.

Projects Module

- The **Comments** field on the Project Detail window has been renamed to **Project Description**. This change is also reflected on Standard Report 006 – Project Detail report.

System Documentation

- The CAIS User's Guide has been updated to reflect these enhancements included in this release. This document can be obtained from the CAIS website at https://fims.doe.gov/caisinfo/doc.html.

If you have any questions related to this enhancement, please contact the FIMS/CAIS Help Desk at 410-482-0111 or via email at fims_cais_help@hq.doe.gov.
