PROPOSED CHANGE:

REDEFINE THE MISSION ESSENTIAL FIELD FROM A YES/NO SECTION TO ONE OF THE FOLLOWING THREE:

1. **MISSION CRITICAL** - Those constructed assets or parcel of land deemed necessary to perform the primary missions assigned to a particular Site. This would encompass any facility or infrastructure predominantly used to perform scientific, production, environmental restoration or stockpile stewardship and without which, operations would be disrupted or placed at risk.
2. **MISSION DEPENDENT, NOT CRITICAL** - Those constructed assets or parcel of land that play a supporting role in meeting the primary missions assigned to a particular Site. Loss of Mission Dependent, Not Critical assets would not immediately disrupt operations and can be reasonably restored or otherwise addressed prior to impacting operations.
3. **NOT MISSION DEPENDENT** - Those constructed assets or parcel of land that are not in support of the primary missions assigned to a particular Site but support secondary missions and/or quality of workplace initiatives. Loss of a Not Mission Dependent asset results in inconvenience and indirectly impacts operations if unavailable for an extended period. Further, assets determined to be excess to the site mission fall under this category.

JUSTIFICATION:

REVISIONS TO THE DEFINITIONS WILL SIMPLIFY THE REPORTING TO GSA AS OUTLINED BY THE FRPC REQUIREMENTS. REVISED DEFINITIONS WILL PROVIDE MORE CLARITY AND ELIMINATE THE POTENTIAL FOR MISINTERPRETATION.
