| Proposed Change: | NNSA would like to take the data populated in it's Secondary Core Capability (C-10) and convert it to a (Y/N) field entitled "Enabling Infrastructure". | | | | |
| Justification: | NNSA is implementing a Mission Dependency Index that weights the number of capabilities per facility.<br><br>This would free-up a Core Capability field for a total of five Core Capabilities.<br><br>While not every facility needs five capabilities, NNSA has numerous facilities that support multiple capabilities and need as many as five capabilities to capture all the work done in the facility.<br><br>Please refer questions to Larry Bridges or Jeff Underwood. | | | | |
