

**U. S. Department of Energy  
Facilities Information Management System  
Request for Change  
Change Request #: 17-01**

Requestor Name:	Jack Butler	Date:	01 DEC 2016	Affiliation:	
Email Address:	Jack.Butler@srs.gov	Phone No:	803-952-7211	DOE	X
Program Office:	EM	Savannah River Site		Contractor	
Proposed Change:	Establish a new data field entitled " <b>Site Program Code</b> ". Field would consist of up to 12 characters for posting of Site-developed program and/or funding codes. This field would be for optional use by Sites.				
Justification:	SRS has approximately 2,500 assets in FIMS. These buildings, trailers and OSF's are funded by 16 separate programs. Use of the existing "Program Office" and "Assigned Contractor" fields in FIMS do not provide sufficient detail to identify which programs fund operation and maintenance of our 2,500 facilities. Having the ability to sort, group and analyze this large inventory of facilities by program and funding source will greatly improve the accuracy of numerous RPAM related planning, budgeting and management activities.
