Request for Change
Change Request #: 17-09

Requestor Name:	Theresa Kelly	Date:	12-20-16	Affiliation:	
Email Address:	Theresa.Kelly@science.doe.gov	Phone No:	301-903-8429	DOE	X
Program Office:	Office of Science			Contractor	
Proposed Change:	Add the following FIMS data elements to Report 001. • Mission Unique • Core Capability • Overall Asset Condition • Modernization • Uniformat No additional data entry required by sites for this change.				
Justification:	These elements were added by the LOB and there is currently no report that shows these elements other than under "Property List" where some can be found (e.g. LOB Condition). The Office of Science would like to be able to review this information and it would be easier if it was listed in a report. The report that seems to be the best fit for this would be Report 001.				
Please Do Not Type Below This Line					
FAC Remarks:	02/28/2017 – FAC Recommended with some exceptions. Report 001 currently has Core Capability 1, Overall Asset Condition and Modernization included on the report. Mission Unique is currently not included in the report and will be added to Report 001. As for the Uniformat data, including this on a one page report will be problematic for many reasons the least of which is physical report space. This would also cause data issues in the Excel output because you have a relationship of one asset to multiple Uniformat records which would cause the duplication of asset level data elements. Change Request 17-10 was approved for the development of a Uniformat ad-hoc query tool which would satisfy the need of allowing users to query and print the Uniformat level data. Therefore, Uniformat level data will not be provided in Report 001.				
OAM Remarks:					
FDDC Remarks:	04/14/2017 – FDDC Approved				
Implemented:	08/28/2017 – Implemented into FIMS 3.0
