Proposed Change:	<p>Add the currently existing Unifomat data fields into the Ad Hoc Tool.</p> <p>No additional data entry required by sites for this change.</p>				
Justification:	<p>Unifomat data elements were added to FIMS to support LOB initiatives. Recently the Deficient System field has been eliminated thus condition data is no longer available in the FIMS Ad Hoc Tool. Adding these Unifomat data elements to the Ad Hoc tool will allow analysis to be performed.</p>
