Proposed Change:	<p>Revise the data element definition of <i>Modernization</i>.</p> <p>1. Revise the definition of <i>Modernization</i>-</p> <p style="padding-left: 40px;"><b><u>From</u></b></p> <p style="padding-left: 40px;">Cost representing improvements to the asset that result in better quality work, increased capacity, extended useful life as well as enhancing the value of the asset.</p> <p style="padding-left: 40px;"><b><u>To</u></b></p> <p style="padding-left: 40px;">Estimated cost of proposed improvements to an existing asset over the next five (5) years that keeps it relevant and updated in an environment of changing standards and missions. This includes improvements that: result in better quality, higher capacity, or greater energy efficiency; extend the useful life of the facility; accommodate a change in the use of the facility; or accommodate regulatory or other requirement changes.</p> <p style="padding-left: 40px;">The Estimated Modernization Cost is a cumulative value of projects over a rolling five (5) year timeframe including the current and subsequent four (4) fiscal years.</p>				
Justification:	<p>Update requirement to align with DOE O 430.1C, <i>Real Property Asset Management</i>.</p> <p>Five (5) year planning horizon required to support new FRPP Data Element, <i>Estimated Future Capital Expenditures</i>. Estimated future capital expenditures is defined in Section 6 of P.L. 114-318, the Federal Property Management Reform Act of 2016 amending Section 524(a) of title 40, United States Code, as “the estimated amount of capital expenditures projected to maintain and operate the property during the 5-year period beginning on the date of enactment of this paragraph.” Note: Revision of the data element title from <i>Modernization</i> to <i>Modernization Cost</i> is already planned for FIMS 3.0.</p>
