Subject: Facilities Information Management System (FIMS) Version 3.25 Release

Today, Tuesday, January 11, 2022, version 3.25 of the Facilities Information Management System (FIMS) was released.   This release addresses the enhancements listed below.

Change Request 21-05

- **Project Number** has been added to the AAIM Asset List window and is available as part of the search criteria. **Project Number** has also been added to the results table at the bottom of the window.

Change Request 21-06

- The filter option for **Status** on the Property List window has been changed from free-form text to a dropdown picklist for easier use.

FY22 Data Validation Updates

- The Bridge Safety Inspection Verification sheet from Standard Report 016 (DOE Owned Data Validation Reporting Form) has been updated to align with the FY22 FIMS Reporting and Validation Guidance from the Office of Asset Management (MA-50).

- When generating the DOE Owned Data Validation Reporting Form, an acknowledgement message has been added related to the new FY22 revalidation policy.

- A new standardized template of the Corrective Action Plan (CAP) is now available. This format should be used, effective immediately, by all sites who currently have a CAP plan. If your site does have a CAP plan, please copy your existing plan into the new format.

If you have any questions related to these enhancements, please contact the FIMS Help Desk at 410-482-0111 or via email at fims_cais_help@hq.doe.gov.
