**Subject:** Facilities Information Management System (FIMS) Version 4.5 Release

Today, Thursday, February 29, 2024, version 4.5 of the Facilities Information Management System (FIMS) was released. This release addresses the enhancements listed below.

### **Change Request 23-01 (Excess Date)**

- The Property Status window has been modified to eliminate the requirement to populate the **Excess Date** when the **Excess Indicator** is equal to 'No'.

### **Change Request 23-02 (New Outgrant Detail Standard Report)**

- A new Outgrant Detail standard report has been developed and is available from the standard report menu. The report number is 025 and includes both PDF and Excel output options. The report can be generated by **Program Office, Field Office, Site, Area and Property ID**.

### **Change Request 23-03 (New Hazard Category)**

- A new **Hazard Category** option has been added. The new option and definition are provided below.
  - 12 Accelerator Facility - The facility which contains an accelerator and its components which employ electrostatic or electromagnetic fields to impart kinetic energy to molecular, atomic, or sub-atomic particles and capable of creating a radiological area as defined by 10 CFR Part 835, Occupational Radiation Protection and covered in DOE O 420.2D.
  - The previous option of 12 Not Applicable has been changed to 13 Not Applicable. No action is needed on behalf of the Sites as a result of this change.

### **Standard Report 024 (DOE Bridge Validation Reporting Form)**

- For each bridge asset, the **Real Property Unique Identifier (RPUID)** has been added to the bottom of the bridge validation form.

### **System Documentation**

- The FIMS User's Guide and Standard Report Samples documents have been updated to reflect enhancements associated with this release. These documents can be obtained from the FIMS website at <https://fims.doe.gov/fimsinfo/doc.html>.
