Office of Asset Management (MA-50)

SUBJECT: Facilities Information Management System (FIMS) Version 2.40 Release

Today, Thursday, March 2, 2017, version 2.40 of the Facilities Information Management System (FIMS) was released. This release addresses the enhancements list below. The Change Requests can be found on the FIMS informational website (https://fimsweb.doe.gov/fimsinfo/change_requests.htm).

- A new picklist data field, **National Laboratory**, has been added to the Property Detail window. This data field is available for all assets and is required to be populated for assets that belong or are the responsibility of a DOE national laboratory. This request was defined in Change Request 16-05.
Sites may request FIMS Support to globally populate this data field if all their assets belong to one specific defined **National Laboratory**.
- **Real Property Unique ID** has been added to the default list of Selected Display Columns in the Ad Hoc – Current, Historical, Archive and FRPP tools. This request was defined in Change Request 16-13.
- The **Unit of Measure** for **Usage Code 6929 – Security Lights** has been changed from Feet to Each as requested by Change Request 16-19. Please check the attached list of assets that will require updates to record the **Primary Quantity** in the new Unit of Measure.
- FIMS Guest users can now generate Upload Template files as requested by Change Request 16-21.
- The FIMS User’s Guide has been updated to reflect these enhancements. The document can be obtained from the FIMS website at <https://fimsweb.doe.gov/fimsinfo/documentation.htm>.

If you have any questions related to these enhancements, please contact the FIMS/CAIS Hotline at 301-337-6019 or email fims_cais_help@hq.doe.gov.
